## Seminar Series

### Recent Advances in Stroke Therapy

Stroke is the leading cause of adult long term disability and the third leading cause of death in US. There is one stroke occurs in the US every 53 seconds. It is usually happen in adult over 50 year old but it may involve in patient of all age groups. But one good thing is that stroke is potentially preventable. The talk will cover causes of stroke, clinical features, early diagnosis, and treatment. New advances in stroke therapy and prevention will also be discussed.
